## BritInn Fellowship Programme - INCOMING

Through the “BritInn Fellowship Programme”, BritInn supports outstanding academic staff of all disciplines – especially early career researchers - for a short-term stay to the University of Innsbruck to promote collaboration and joint research projects.

BritInn Fellows devote their time in Innsbruck to research and to work on a joint research project with colleagues from the LFUI. Reimbursement of travel and/or living costs will be given depending upon the scope of the assignment, the qualification of the candidate, and available funds.

Applications can be made directly to BritInn through any academic staff member of the University of Innsbruck who wants to invite a colleague from Great Britain to Innsbruck.

BritInn Fellows are expected to be in residence for the duration of the stay. The program does not support, as a primary activity, off-side research. BritInn Fellows are also expected to give a public guest lecture during their stay in Innsbruck about their research, which is organised by BritInn, in cooperation with the hosting department.

The fellowships are designed to promote the academic exchange, enhance the visibility of outstanding scholars from Great Britain in Innsbruck and to give the university community and the general public the opportunity to get insight into the research conducted by the Fellows.
